

**Dr. Vipin Checker**  
**President**  
**2018 - 19**

**Dear Friends, colleagues and fellow members,**

I feel proud and privileged to have the opportunity to serve you and your interests for 365 days to come. For everything that you have bestowed on me - your trust, faith and belief - what can I say but – THANK YOU! The dawn of each of these days will begin with a simple quest - what is it that my team and I can do to make things better for you, our members and through you for our patients and our society?

**Sometimes, it comes upon one man to make a difference.**

It takes one lifeguard to save a person who is drowning. But behind that lifeguard are his teachers, his trainers, his coaches, and the institutional effort, equipment and team that enable him to perform his life saving act. He is able to do what he can because of those who enabled and supported him. I find myself in that position today. Behind me are the past office bearers, my teachers, and my inspiration that have led me to stand before you today. I am imbued by the ideals of selfless service, of respect for our members and an honest intent to serve our association and society. I am empowered with a team that will help you discharge your mission as life savers in a manner that is empowered.

**I am here to Build Bridges and Bridge Chasms.**

I am here to build relationships that will connect us better. These are the kind of bridges I seek to build. Newer, better ways to serve you and solve your issues in a comprehensive manners. I am here to bridge chasms that have formed over time between us and our patients, between us and our regulators and between our potential goals and our circumstances.

**How do I plan to achieve these goals? My way of achieving these goals is by being responsive with responsibility.**

Let me list out the qualitative changes my team desire and I aim to usher in the coming 365 days:

- Work to create a feeling of respect and trust and eliminate any sense of insecurity.

- Work to establish an effective, open, and direct communication with all our fellow members.
- Usher in digitization of all our services so that we are available to our members anytime, anywhere.
- Work towards offering cashless services to all.
- Work towards bridge the chasms that has effected the Doctor –Patient relationship
- Provide liaising services with licensing and regulatory authorities
- Offer all these services in a quick and time bound manner
- Develop an effective grievance redressal mechanism and much more.

You will agree that this is not one man’s work. But with my team and with goodwill and support from all of you, we will work towards a better future for us all. My team is called - **Team Vishwas** - and I believe that it is perhaps the best team that one can work with. In them I have found fellow crusaders who are trustworthy, hard working, committed, transparent and completely loyal to our organization. I therefore request you to bless this team with your trust and faith.

With your blessings and support and dedication of my team, I believe:

“Man mein hai **Vishwas**, Pura hai **Vishwas**,  
Hum honge Kaamyaab!”

Together, we can be the change we want to see in our world. Change is what we can do as individuals, transformation is what we can usher in together.

Let me end with my thought:

“**Coming together** is the **beginning**. Keeping **together** is progress. **Working together** is **success**.”

**Thank you.**

Warm regards,

**Dr. Vipin Checker**
