

Dear Dr,

The Expert Committee appointed by the Maharashtra Govt to draft the Maha-CEA is in the last stage now. The draft is displayed on website of Public Health Department with link: mahaarogya.gov.in/actsrules and all are informed to file objections regarding the draft on email ceamaharashtrap@gmail.com As a part of process, committee members and Deputy Director Health Services (Circles) will hear objections and suggestions regarding the draft at Deputy Director office. Please see attached advertisement for details.

On behalf of AMC we would like to request you to go through the attached draft of MCEA as revised till now. The MCEA has been modified as per the recommendations given by AMC on a number of points as highlighted in the revised draft. But our next concern is the framing of Rules which will be done by sub- committees at a later date once the ACT is enacted. Please go through the appeal letter to know the intricacies of the ACT. We appeal to you to submit your suggestions to the Govt. to form a similar committee of all the stakeholders like the present Expert Committee to draft the Rules. This will ensure that the Rules are framed with a balanced approach and not haphazardly.

We urge you to post your comments to the above said email id after going through the attachments.

Regards,

Dr Sangeeta Pikale
President

Dr Vipin Checker
Hon. Secretary

Dr Sujata Rao
Immediate Past President
& Member, Expert Committee, CEA
